Bachelor of Technology in Computer Science Engineering — CGPA: **8.53/10**

Nagpur, India

2021 - 2025

Martandrao Patil Kapgade Vidyalaya Jambhali/Sadak

HSC (Maharashtra State Board), Percentage: **84.33%**

SSC (Maharashtra State Board), Percentage: **82.00%**

Sakoli, India

2020 - 2021

2018 - 2019

Skills

Technical Languages: Python, Javascript, Java

Web Technologies: HTML5, CSS3, Bootstrap, Tailwind CSS, JQuery, React.js, Node.js, SASS

Tools: VS Code, Git/GitHub, Replit, PyCharm, Version Control, Code Collaboration

Databases & Concepts: MongoDB, SQL, Data Structures & Algorithms (DSA), Database Management (DBMS)

Internships

Refine Media and Productions Pvt Ltd., Nagpur, India

December 2024 – May 2025

Full Stack Developer Intern

Nagpur, India

- Skilled in **HTML, CSS, JavaScript**, and **React.js** for dynamic, **Node.js, Express.js**, responsive interfaces and databases like **MongoDB** and **MySQL**.
- Proficient in CSS frameworks like Bootstrap and SASS for efficient styling.
- Strong **problem-solving**, adaptability, and **team collaboration** skills with a focus on attention to detail, **time management** and **communication**.

KasNet Technologies Pvt. Ltd., India

April 2023 – July 2023

Cloud Intern

Nagpur, India

- Hands-on experience with **Microsoft Azure services**, including virtual machines, storage, and virtual networks.
- Assisted in deploying scalable solutions, configuring Azure Monitor and Application Insights for performance tracking, and implementing **cost optimization** strategies, Strong focus on **scalability, performance**, and **resource efficiency**.

Projects

Automated Image Fetcher - [live](#) | Python, Flask, HTML, CSS, Javascript

- Developed a Python and Flask-based web application to automate image extraction using **BeautifulSoup** and Requests, with **filters for dimensions, file size, and format**.
- Designed an intuitive User Interface (UI) for users to specify quantity and formats (.jpg, .jpeg, .png, .webp).
- Enabled bulk downloads, **bundling images into a ZIP file** for efficient storage and transfer, optimizing performance and usability. **Achieved a 95% satisfaction** rating from over **100 user testers** during the testing phase.

AI-Powered Resume Builder - [live](#) | Javascript, React.js, Python, Flask, Firebase, Tailwind CSS

- Led the development of an **AI-powered resume builder** leveraging **React.js, Flask, and WeasyPrint** to deliver instant PDF generation and **live resume previews** with zero-lag performance.
- Implemented **multi-format export** (PDF, HTML, JSON) and **integrated Firebase** for analytics tracking, while developing an interactive **assistant bot** to guide users and reduce form errors in real-time.
- **Achieved 85%+ ATS compatibility** by implementing **responsive web design** principles and ensuring **cross-browser compatibility**, resulting in a seamless user experience across all devices.

Achievements & Certificates

LeetCode - [Profile](#) | Solved **250+ problems** on LeetCode with **260+ active days** and earned the 100 Days Badge.

Academic Excellence Certificate – Recognized for exceptional performance through dedication and commitment to learning.

Microsoft Azure Fundamentals (AZ-900) – Scored **910/1000** on the Microsoft Azure Fundamentals certification exam.

Web Development – Completed a 1-year Web Development program at STP Computer Education.
